

Kan-Cut

L.H. Dottie has developed a range of Tugsten Carbide Grit Edge holesaws that enable any user to effectively and economically cut drywall, plywood, wood, acoustical tile, OSB, plaster, stucco and fiberboard.

Features and Benefits

- ✓ Long consistent performance with low wear rates reduce risk of stress delamination and cracking
- ✓ Can be used in a counter clockwise direction
- ✓ Smooth Cutting action reduces vibration and dust dispersal
- ✓ Long Lasting even on abrasive materials

Part #	UPC #	Description
358C	15960	3-5/8" Kan-Cut Fixture Saw
425C	15962	4-1/4" Kan-Cut Fixture Saw
438C	15975	4-3/8" Kan-Cut Fixture Saw
638C	15980	6-3/8" Kan-Cut Fixture Saw
658C	15985	6-5/8" Kan-Cut Fixture Saw
678C	15990	6-7/8" Kan-Cut Fixture Saw
KC100	17175	6-3/8" - V45P Kan-Cut Fixture Saw Kit
KC200	17180	4-1/4" - 6-3/8" - V45P Kan-Cut Fixture Saw Kit

One Blade Does it All

- Cut Longer - The edge stays sharp providing a longer life.
- Cut Faster - The cut is faster & more aggressive.
- Cut Smoother - Leaves the cut edges smooth without chipping.
- Cut Safer - The blades have no teeth to snag or bind, they cut without excess vibration.
- Cut More - One holesaw can cut many different "problem" materials as well as ceramic tile.

Applications and Materials

A high performance holesaw for the professional that will out-perform and out-last traditional toothed alternatives.
